

Fuel Up for Less – Eat Well, Live Green!

Dear Parents, Carers, and Students,

Your in-house caterer **Thinking Food** at Brixham College is thrilled to announce a range of exciting updates to our school catering service, designed to offer more variety, better value, and a stronger commitment to sustainability.

New Daily Hot Dessert

Students can now enjoy a comforting **hot dessert**, freshly prepared to accompany their lunch.

Meal Deal – Best Value

We're introducing a fantastic new offer:

Main Meal of the Day + Hot Dessert + Refill from our Fruit-Infused Water Station – all for just £2.90!

This deal promotes healthy eating and hydration while offering great value.

Fuel for Less – Tasty, Affordable Grab & Go

Our students asked for lower priced options **“You Said” “We Did!”**

Our new **Fuel for Less** range features smaller, nutritious grab & go pots including:

- Rice, noodles, pasta
- Mini baguettes
- Granola pots
- Hummus with dips

All available for just **£1.30** – perfect for a quick, balanced bite!

Sustainability First

We've **removed all plastic bottles** from our catering service, helping to reduce our carbon footprint and support a more sustainable future. Our new **Fruit-Infused Water Station** available with all our Meal Deal Offers, encourages reusable bottles and eco-friendly habits.

We hope these changes will be warmly welcomed and that students will enjoy the new options available. Thank you for your continued support as we strive to make our school a healthier, greener place for everyone.

Kind regards,

Tracy Styles
