

The Values Curriculum

INTENT

At our college, every child and young person engages with a thoughtfully designed Values curriculum that places the learner at the heart of all planning, learning, and assessment. This curriculum is rooted in *high expectations* and promotes *continuous development*, ensuring that each student is both challenged and supported to grow academically and personally. It responds to both local and global contexts, recognising and celebrating the richness and diversity of our students' backgrounds, experiences, knowledge, and values. By building on what learners already bring to the classroom, we cultivate *knowledge*, *character*, and a sense of *leadership* in every student. Central to our approach is the integration of the PREVENT strategy. All staff complete WRAP training to ensure a safe, inclusive learning environment. This results in a robust, responsive, and integrated programme of study that not only safeguards our students but also empowers them to think critically and engage in meaningful discussions about the world around them.

IMPLEMENTATION

At Brixham College, all children and young people learn through a thoughtfully planned, flexible, and inclusive Values curriculum that enriches their educational experience. Rooted in *real-life contexts* that are relevant to our students, their families, and the wider community, this curriculum supports the development of *character*, *knowledge*, and *leadership* through meaningful and reflective learning opportunities. With a clear focus on *high expectations* and *continuous development*, the Values curriculum empowers students to make informed choices and take responsible action, equipping them to lead happy, healthy, and fulfilling lives—both now and in the future. Through engaging, active learning experiences, students build the knowledge, skills, and resilience needed to navigate relationships, assess and manage risk, and respond confidently to both the predictable and unforeseen challenges they may face during their time at Brixham College and beyond.

The Values curriculum at Brixham College supports students' personal growth, academic engagement, and life readiness. Through real-life contexts and inclusive, high-expectation learning, students build character, resilience, and confidence. Lessons promote safety, respect, and leadership, shaping aspirational individuals who contribute positively to the community. Impact is evident in ClassCharts data, student voice, and staff and parental feedback.
